February 02, 2015

Dear Dr. Ullrich,

We acknowledge that the NASA Earth Exchange (NEX) facility is identified as an enabling tool in supporting the investigation, entitled "TempestExtremes: Indicators of change in the characteristics of extreme weather" that is being submitted by Dr. Paul Ullrich to the NASA ROSES-14 Announcement NNH14ZDA001N-INCA (A.29: Climate Indicators and Data Products for Future National Climate Assessments), and that we (the NEX team) intend to carry out all responsibilities identified for us in this proposal. We understand that the extent and justification of our participation as stated in this proposal will be considered during peer review in determining in part the merits of this proposal. We have read the entire proposal, including the management plan and budget, and we agree that the proposal correctly describes our commitment to the proposed investigation.

Sincerely,

A handwritten signature in dark ink, appearing to read "Ramakrishna Nemani".
